

NEW NAVAL COLLEGE IS PLANNED IN CHINA

[UNITED PRESS LEARNED WIRE.]
Shanghai, Nov. 21.—In preparation for the arrival of Captain Harold Christian, of the British navy, who has been loaned to China for a period of three years, Chinese government experts today are looking over Nimrod Sound near here in search of a site for a new naval college. The government has naval training schools at Tientsin, Nanking and Canton, established under the monarchy, but the proposed college will be much more comprehensive and modern. The Minister of the Navy hopes to develop it, with Captain Christian's aid, into a national institution. The training schools at Nanking, Canton and Tientsin will not be discontinued for the present, and they may be retained permanently as feeders to the proposed college. Correlative with the naval college and the training school courses, will be actual service at sea. A number of up-to-date training ships for this purpose will be added from time to time to those now in use. Captain Christian is one of the best known officers not of admiralty rank in the British navy. He is commander of the Hannibal. He will be assisted as director of the new naval college by several instructors in various naval branches. They, too, will be drafted from the British navy and are expected to leave shortly with Captain Christian.

HONOR SYSTEM WORKS WELL IN OHIO PEN

[UNITED PRESS LEARNED WIRE.]
Columbus, Ohio, Nov. 21.—Prison reform has been advocated by Warden Thomas of the Ohio penitentiary ever since he took office and more deeds than words have marked his advocacy of a question which is being agitated today. Thomas was perhaps the first prison warden to give his charges the real outdoor exercise of the kind that made them forget that they were practically nothing more than caged creatures. He organized the "Penitentiary Baseball League" and every week, all summer long, one game was staged in the prison yards, and all inmates "in good standing" were permitted to be just fans.

The burglar convict yelled himself hoarse for the "Burglar Nine" while the expert penman, who signed other names than their own to checks cheered their hearts content when one of the "Forgers" lifted the ball over the forty foot prison wall. But chief of the reforms advocated by Thomas has been the "honor system". He has put this into practice and today stated that he believed his statistics showed the system successful. "Out of 275 trustees many of them real 'bad men,' burglars, outthroats and murderers," said the warden, "placed out side the prison walls since April 1 on their honor only 16 have walked away."

SAYS DIRTY PEOPLE MAKE DIRTY TOWNS

[UNITED PRESS LEARNED WIRE.]
Indianapolis, Ind., Nov. 21.—"Dirty People and Dirty Towns" is a subject handled without gloves by Dr. J. N. Hurty, state health commissioner, in an article prepared today for the United Press.

"The reason we have so many dirty towns is because there are so many dirty people," said Dr. Hurty. "Shall the dirty people be compelled by law to be clean? No, indeed, not unless their dirtiness threatens the health and comfort of others. The Scripture says: 'He who is filthy let him be filthy still.' Of course, what is the use to do otherwise. Compelling him who is filthy to be clean in person and premises will not make him clean in mind and soul. He'll be filthy still. We must teach cleanliness to the unclean. Then if they become clean and stay clean, it is because cleanliness is their nature."

"The town is a mirror. It reflects

Health Restored by Eckman's Alternative

Glandular trouble, very frequently diagnosed by physicians as "Tuberculosis in the Glands" has been found to yield to Eckman's Alternative when other treatments did not bring relief. Eckman's Alternative is a medicine which during the past fifteen years has brought about many recoveries even in a number of supposed hopeless cases. Read this: "I am a 207 Laureate St. Philadelphia, Pa. 'Gentlemen: In March, 1909, my doctor pronounced me to be suffering from 'Tuberculosis in the Glands' and a number of operations in a hospital failed to benefit me. In the meantime a friend of mine advised Eckman's Alternative. The wounds in my neck were still open and in a frightful condition when I started to take it. After using two bottles I found I was improving, having gained weight, could eat and was able to sleep. I continued using it until I was well, which was in November, 1910. On November 11, 1910, I started to work, and since that time I have not had one day's work through sickness. I highly recommend Eckman's Alternative to anyone who is suffering from gland trouble." (Address: JOSEPH E. WHITE, (Address abbreviated; more on request.) Eckman's Alternative has been proven by many years' test to be most effective for severe Throat and Lung Affections, Bronchitis, Bronchial Asthma, Stomach, Cough and in subduing the system. Contains no narcotics, poisons or habit-forming drugs. Ask for booklet telling of recoveries. Write to Eckman's Laboratory, Philadelphia, Pa., for evidence. For sale by all leading druggists. J. C. Perry, Druggist.

"GETS IT" is a Wonder for Corns

No Fuss, No Pain, Sure and Quick,
Nothing Like It. "Gets" Them
Every Time.

You never used anything like
"GETS-IT" for corns, before! You're
sure at last that every stubborn corn

"Nobody Knows How Good I Feel
Corns Are Gone at Last. 'GETS-IT' Did It!"

that you've tried so long to get rid of is a "goner." You apply "GETS-IT" in two seconds, that's all. "GETS-IT" does the rest. There is no more fussing, no more bandages to fix, no more salves to turn the flesh red and raw. No more plasters to get misplaced and press on the corn. No more "pulling," no more pain, no more picking and gouging, no more rasors. "GETS-IT" stops pain, shrivels up the corn, and the corn vanishes. "GETS-IT" never fails, harmless to healthy flesh. Warts, calluses and bunions disappear.

"GETS-IT" is sold by drug stores at 25c a bottle, or sent on receipt of price by E. Lawrence & Co., Chicago.

the people. A man who is clean in mind will be clean in person. He will have a clean front-yard and a clean back-yard. A littered door-yard and a dilapidated house reflects a littered and dilapidated mind.

"The reason we cannot make a silk purse out of a sow's ear is because it is a sow's ear. It is not silk. A naturally dirty man can not be made a clean man. Dirty towns will exist as long as the dirty people exist. We must start our future citizens right by giving more time to instructing young children evil results of the crime of dirt."

HAS TENNIS CABINET

[UNITED PRESS LEARNED WIRE.]
Washington, Nov. 21.—It wasn't until today that it became known that President Wilson has a "tennis cabinet" even though he is adverse to following the customs of previous administrations. In the "tennis cabinet," however, the president is strangely missing. His daughters, the Misses Eleanor and Jessie, take his place. The other members are French Ambassador Jusserand and Secretary of the Treasury McAdoo.

DRINK HABIT

RELIABLE HOME TREATMENT.

The ORRINE treatment for the Drink Habit can be used with absolute confidence. It destroys all desire for whiskey, beer or other alcoholic stimulants. Thousands have successfully used it and have been restored to lives of sobriety and usefulness. Can be given secretly. Costs only \$1.00 per box. If you fail to get results from ORRINE after a trial, your money will be refunded. Ask for free booklet telling all about ORRINE. Perry Drug Stores.

PINCHOT WARNS THEM REGARDING POWER TRUST

[UNITED PRESS LEARNED WIRE.]
Washington, Nov. 21.—Overthrow of Gifford Pinchot as the leading spirit in the Conservation congress in convention here, was the admitted aim today of delegates opposed to his policies.

Answering Pinchot's charges that the water power interests had packed the congress, the anti-Pinchot delegates alleged that Pinchot had attempted to pack the convention himself by naming as delegates members of the forest service who were still loyal to him. Pinchot today warned the congress that the General Electric company and nine other groups control 65 per cent of the country's water power.

"If the rights of the public cannot be recognized without a conflict," Pinchot said, "then we must fight. And if we must fight, now is the time to do it."

BEAT WIFE BECAUSE SHE BOUGHT 98-CENT DRESSES

[UNITED PRESS LEARNED WIRE.]
San Francisco, Nov. 21.—Sworn declaration that her husband whipped her with the family carpet sweeper because she spent 98 cents each for two house dresses won a divorce today for Mrs. May Markel from Louis Markel, a grocer. Louis broke down before the court signed the decree.

"Forget this thing, May," he pleaded, "and I'll buy you three more house dresses, a new hat and that corset you said you needed."

Mrs. Markel, however, snapped her fingers at Louis, and marched from the court room.

MOST UNIQUE SCHOOL IN HISTORY OF COLORADO

[UNITED PRESS LEARNED WIRE.]
Carr, Colo., Nov. 21.—With only her brothers and sisters as pupils, Miss Agnes Mantey, 20, today is conducting on her father's ranch seven miles north of here the most unique school in the state of Colorado. The school was established recently and despite the small number of pupils, is a grade and high school of equal standing with the biggest schools in the state.

Miss Mantey was regularly appointed to her position by the school directors and draws a salary of \$60 a month from the county treasurer just like any other public school teacher. The school district stood the expense of fitting up the single classroom and Mantey's sons are the official janitors of the building. The school was established at the Mantey house when Mantey and wife represented to the school directors that their ranch was five miles from the nearest school building and that the Mantey children would grow up in ignorance unless the public authorities acted.

Six Mantey children are enrolled in the grade school and one in the high school. Three of the Mantey children are under school age, but it is said the district, under pressure, may pay for installing a kindergarten for them. The only pupil in the high school is Mary, 15, but the enrollment will be increased to two when Martha, 12, graduates from the eighth grade next June and is awarded a grade school diploma. The only ripple in the calm course of the school occurs when Teacher Agnes claims the right of inflict corporal punishment and is firmly resisted by her mother, who claims that privilege exclusively. There has been no hazing so far.

GAME TO MERGE CHICAGO UTILITIES IS NOW ON

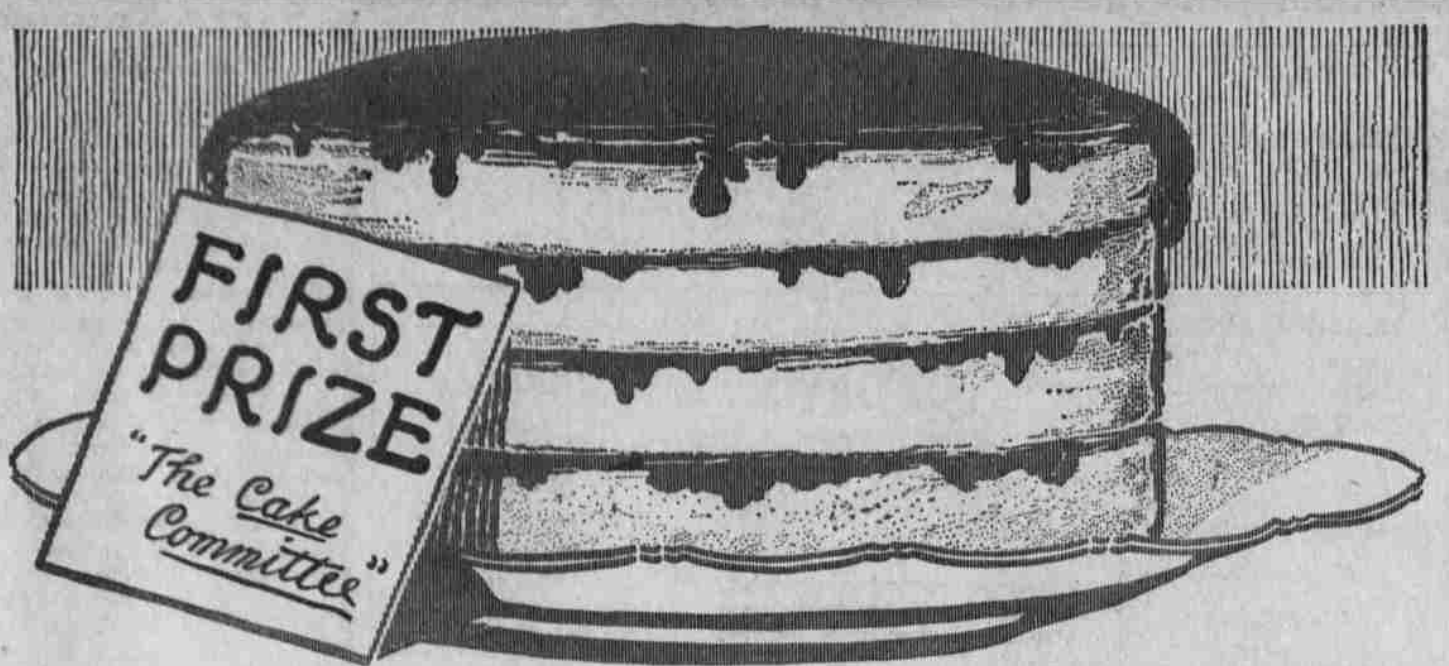

[UNITED PRESS LEARNED WIRE.]
Chicago, Nov. 21.—La Salle street, the Windy City's replica of New York's Wall street, is watching with the keenest interest these days for the newest moves on the financial checker-board in a game where the city's authorities are the pieces and the outcome perhaps of more importance than in any big deal that ever affected an American municipality.

The game, La Salle street says confidently and confidentially, is to merge all the public utilities in Chicago, excepting the Chicago Telephone company, into one gigantic combination. If it is played successfully, one group of financiers, who will be known as the Insull-Coke-Blair syndicate, will have absolute control of the heat, power, light and transportation facilities of the second city of the United States. Samuel Insull, head of the Commonwealth Edison company; Henry A. Blair, financial head of the Chicago Railways company, and Ira M. Coke, chairman of the board of directors of the Chicago City Railway company, the three men declared to be working the merger into shape, all issued denials of any such intentions today. But the talk of the giant combination persists in Chicago business centers and financial experts point to recent developments to support the theory that the big merger has become something more than a dream.

Samuel Insull, head of the Commonwealth Edison company, itself a merger of all electric current corporations in the city, with his associates, a few weeks ago assumed control of the Peoples Gas, Light and Coke company. James A. Patten, the "wheat king," by the way, was one of the men in the deal, and was voted a directorship in the newly organized company. While Insull was completing what was considered to be practical merger of all the light, heat and power interests of Chicago, Blair was in the east negotiating for the amalgamation of all the city's surface railways. It is no secret that the merger of the surface lines is to be followed by a similar combination of the elevated railways, and that the two transportation combines are to be merged into one gigantic corporation, the promoters hope at least to bring all the transportation lines into working agreement before the first of next year. The next big move that La Salle street interests expect is a merger of the two big mergers into one, that will dominate the transportation, heating, power and light situation not only in Chicago but in several Northern Illinois counties and cities, where the Insull crowd have control.

The Chicago Telephone company, the single big utility outside of the program, has a merger plan of its own hanging fire. For several weeks the financial backers of the company have been attempting to get the city council to consent to the purchase of the Illinois Telephone and Telegraph company, the automatic phone concern, and its only rival in the local field. This proposed merger is being held up, pending information from Attorney-General McKeeney, as to whether or not it would violate the Sherman act.

With some people hope is the outward expression of laziness.

This cake, made by the Cottolene recipe, using **only** Cottolene for shortening, won the **first prize** three separate times at the Texas State Fair. Cottolene recipes are all winners, at home or elsewhere.

Cottolene

Remember, however, that you do not need to use as much Cottolene as you would of butter or lard. Always use one-third less when cooking with Cottolene, for Cottolene goes much farther.

You save money, any way you figure, if you cook with Cottolene, and your food is more wholesome and more digestible. If you will give Cottolene one fair trial, you will continue to use it for everything except on the table.

This is the recipe for the prize-winning cake, by Mrs. W. J. Stone, Dallas, Texas:

Three-fourths cup of Cottolene, 2 cups sugar, 3 cups flour, 1 cup milk, 2 teaspoons baking powder, 5 whites of eggs beaten to stiff froth, 2 teaspoons lemon extract. Cream 3-4 cup of Cottolene with sugar, add milk and flour alternately until well mixed, then add whites of eggs and extract. Grease tin and flour them; light the gas just as you place cakes in stove. Put all three layers in and cook at once. Let the cake cool an hour or so before icing.

FILLING—Two cups sugar and just enough water to moisten, cook until it threads from the spoon. Beat whites of 2 eggs to stiff froth, pour the boiling syrup over the whites and beat constantly, then add 1 teaspoonful of lemon extract and 1-2 package shredded coconut, and ice your cake. If icing begins to get too stiff to ice add about 2 tablespoons of boiling water and beat well.

Give yourself the satisfaction of knowing what Cottolene can do. Order a pail of it from your grocer; also send to us for the interesting FREE Cook Book, HOME HELPS, written by five leading authorities. Write for it today

CHICAGO

GREAT NORTHERN EARNED SEVENTY-EIGHT MILLIONS

The total operating revenues of the Great Northern Railway company for the year ending June 30, last, according to a report filed with the state railroad commission yesterday, were \$78,654,590.78 and its total revenues in Oregon were \$39,565.51. Its freight revenue derived from the entire line was \$55,426,235.69 and its passenger revenues was \$15,158,588.44. Excess baggage yielded the company \$169,770.85 and its parlor and chair car revenue was \$2,966,565.10 and its express revenue was \$1,777,248.74.

According to the report the par value of the company's stock upon which dividends were paid is \$209,980,800, and the dividends issued quarterly aggregated \$14,698,659.50, each issue being 1.34 per cent. It had 40,523 employees, who were paid \$27,968,135.36.

The report says the company is the outgrowth of the Minneapolis & St. Cloud Railroad company, which was organized in 1856, the name being changed to the Great Northern Railway company September 16, 1889.

WHITE RATS WILL RETAIN CHARTER, IT IS DECIDED

[UNITED PRESS LEARNED WIRE.]
Seattle, Wash., Nov. 21.—Efforts to have the American Federation of Labor suspend the charter of the White Rats Actors' Association failed here today, the federation voting to have its executive council continue its efforts to settle the differences within the organization.

The White Rats are accused of failing to live up to an agreement made when the Hebrew Actors' Association was amalgamated with it. A settlement of the dispute was arranged for at the Rochester convention, but the executive council was unable to bring it about during the past year, although conferences were held at which President Gompers was present.

GIRL DYING OF POISONING TESTIFIES AGAINST SLAVE

[UNITED PRESS LEARNED WIRE.]
Charleston, W. Va., Nov. 21.—Almost at the point of death from bichloride of mercury poisoning, Ruth Steel, a

19-year-old mountain girl, testified from a cot in the federal courtroom here yesterday against George Jordan, a local business man charged with white slavery.

Jordan persuaded her with promises of employment, she told the jury in a nearly inaudible voice, to come to the city of Charleston, paying her expenses. She was so weak that she could not finish her story, and an adjournment was finally taken until tomorrow. In the meantime doctors will try to keep her alive in the hope that, with rest, she can conclude her testimony. The prosecution asserts that, when she arrived in Charleston, Jordan put her in a room and ill-treated her, as a result of which she attempted suicide.

SETTLEMENT OF DISPUTES BY AMERICAN FEDERATION

[UNITED PRESS LEARNED WIRE.]
Seattle, Wash., Nov. 21.—Settlement of disputes over jurisdiction occupied the attention of the American Federation of Labor convention yesterday.

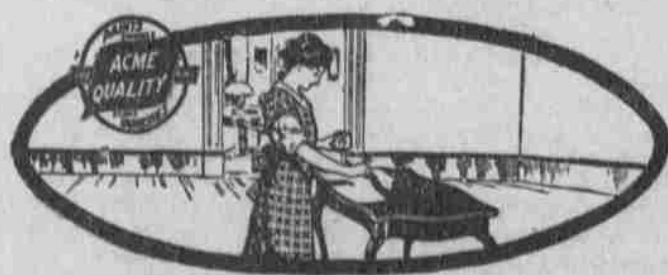

Settlement of the jurisdiction dispute over the making of molds for use in flint glass factories between the flint glass workers and machinists was the cause of considerable argument.

The question was finally settled by leaving the whole matter to a special committee for adjustment.

An agreement was reached between the glass workers and the building trades department of Chicago over the setting of glass on buildings involved in a strike of the builders. The glass workers engaged in putty glazing have been withdrawn from the work.

A resolution by Dominik D'Allensandro of New York calling on the federation to revoke the charter of the cement workers for infringing was not upheld.

During one session, Miss Margaret C. Daly, delegate from the United Garment Workers occupied the chair while decision on several resolutions was made. Miss Daly showed herself a regular lady "Joe" Cannon. She blocked all debates by calling at once for a vote on the question and hammered with her gavel in regulation style.

Fall Painting Means Winter Comfort

If it's a surface to be painted, enameled, stained, varnished, or finished in any way, there's an Acme Quality Kind to fit the purpose.

Fall is the time to touch up all shabby surfaces about the home. A little money spent now for

ACME QUALITY PAINTS AND FINISHES

will make the home brighter, more attractive and more cheerful all winter long.
